This year, the kick-off of the FIFA20 is at Worten's feet as it is going to put fans testing the new game first hand. **WORTEN GAME RING KICK-OFF FIFA20** is going to be held at the Colombo Worten store on Thursday 26 September, starting at 19:30 with a very special guest.

RicFazereres, one of today's greatest Youtubers, is going to be at the store to try out the new video game in VOLTA mode, one of the great novelties of this release. He is going to be in the store between 20:00 and 22:00 to play with the fans and present one of the world's most coveted games.

Store dynamics on the 26th

The fans are going to have their own space to try out the new FIFA20 which will stay in the store until 6 October, where, apart from trying out the game, they can also tag the WORTEN GAME RING KICK-OFF FIFA20 wall. The most creative tags will win an official FIFA20 T-shirt.

If you like competing at a more serious level, the Worten Game Ring is going to hold a "**knock-out stage**" of FIFA20 VOLTA: each player only has one 'life', so once it's gone you are out and can't participate any more. The player who wins most times and who last longest on the podium will take a PS4 bundle with the new FIFA20 home with them. Too good to miss, right? Enrol for the tournament at the store starting at 19:30 on the action day (Thursday, 26 September). **Shall we kick-off?**
