Worten is continuing to wager on actions that make it stand out and bolster its positioning as a gaming brand in Portugal. The Colombo Worten store is going to host the "BACK TO FORTNITE TOURNAMENT" on 11 September for all Fortnite fans who enjoy playing the game "live".

Shikai, one of the best Fortnite players in the world, is the special guest at this event and he will be at the store between 18:30 and 21:00 to also give his all in this competition.

The tournament is to be held between 10:00 and 21:00 and Fortnite fans are going to compete in doubles to try and win the prizes we have set aside just for the best three. Participants can enrol at the store from 10:00 onwards and the tournament will be held in "kill-count" mode. Each double will compete in at least one match and the double with most "kills" wins. Shikai is also going to play and even team up with some of the participants.

At the end of this competition in the store, the winning doubles are going to take home various pieces of gaming equipment such as a Logitech M500 RGB mouse, LEGION Recon backpack and LEGION mouse pad. The MVP is going to win the new LEGION Lenovo bundle, which is on sale only at Worten.
