Entertainment can't stop, let alone gaming. This is what Worten means by launching WORTEN GAME RING LOCKDOWN, a series of online tournaments for PC, PS4 and mobiles, which includes 14 tournaments, over 14 days, with several games - Clash Royale, League of Legends, FIFA20, Heartstone, Brawl Stars, Counter-Strike and PUBG are just a few examples - and they challenge both single players and teams to compete with friends or family to, of course, win the most varied prizes at stake, all of them with guaranteed home delivery.

"Everything happens online, obviously, considering the current situation, in this case on the site www.wortengamering.pt, where, by the way, anyone who is interested can sign up by choosing their game/tour. We want everyone to participate and have fun, staying at home and doing their best in the competition. We have parent and child formats, which we hope will enthuse the whole family. And of course, there are prizes. You can win smartphones, gaming accessories and even discounts on takeaway meals," António Fuzeta da Ponte, Worten's Brand and Communication Director said.

The advertising campaign for this Worten Game Ring initiative (which has partnered with Telepizza, OMEN, Huawei, EatTasty, Nplay and Funko) has been on the air since yesterday, 30 March, and covers digital and social networks. All the tournaments can be followed on the brand's social networks and on Worten Game Ring Twitch as usual, (<https://www.twitch.tv/wortengamering/>), where, besides the gameplay, tips will be given on the different games in the tournament.

The first tournament of the WORTEN GAME RING LOCKDOWN series takes place on Friday 3 April, with the game Clash Royale. On Sunday 5 April, there is a special session for the whole family with FIFA20 and with casts played by the voices of RicFazeres and BombNucker, two Portuguese streamers, who have joined this initiative. Morais HD, in his usual style, is also spreading this WORTEN GAME RING LOCKDOWN to his fans: <https://youtu.be/xFQfggOt5yY>.

Every day of the week is dedicated to a different game and there are prizes for the winners: you could win Huawei smartphones, OMEN equipment, FunkoPOPs, Dualshock controls for PS4, discounts for EatTasty lunches, Worten Game Ring discount codes to use on Worten.com and Telepizza codes for various menus. All this goes straight home to the winners, without them having to leave home.

Entries for each of the tournaments are limited and entries are opened every day for the following day's tournaments. It is therefore important to pay attention to Worten.pt or Wortengaming.pt.
